

2011 Criteria for Assessing YMIP Project Proposals

Project Proposal

1. Quality of work plan (logical/efficient/suitable)
2. Sufficient/quality information provided to accurately assess the proposal

Ability/Experience

1. Past performance of applicants work
2. Past performance of applicants reporting
3. Quality of personnel/contractors

For new applicants and personnel/contractors with no previous YMIP history, the average score of all applicants will be assigned to avoid a negative scoring bias.

Target Considerations

1. Favorable geology
2. Integrity of data/research and exploration plan

Other Considerations

1. Potential of YMIP funding to produce additional economic development

Ratings

- 5. Exceptional**
- 4. Above Average**
- 3. Average**
- 2. Below Average**
- 1. Poor**
